

HOW TO STOP 5G

A MANUAL FOR THE MODERN WARRIOR

@badassmamita

Doing everything in our power to stop this insidious eugenics exercise is our moral duty to the future generations of our species. Our innocent children MUST be defended from Big Wireless and their blatant lack of care for human biology. The first requirement, modern warriors, is that we give up complacency, apathy, expecting someone else to do the work for us, expecting someone else to organise things for us. Stop passing the buck. Cancel social events, stop watching Netflix and SHOW UP for humanity, NOW. Factor in research time. We must MAKE TIME for these actions. Be prepared to move your body, not just click 'Share' or sit at home. NOTHING is more important than stopping 5G.

1. LEARN WHAT 5G IS and HOW IT WILL EFFECT YOU AND YOUR FAMILY.

Rapidly come into a clear understanding of the science behind 5G technology. 5G is not a discussion about consumerables or faster internet. It is Artificial Intelligence assault weaponry. Immediately read up at these links and don't stop there. Research deeper. Each family should be doing at least 10 hours of research on this topic. Flicking through one or two sites is NOT GOING TO CUT IT.

2. NEXT WRITE TO YOUR TOWN MAYOR demanding an immediate HALT on 5G PROGRESS.

Most town mayors are currently unaware of what 5G means for human biology. Educate them immediately. Write to your mayor requesting a meeting to discuss 5G. Mean it. Get ready to visit council. Get a group together, even if it's 2 of you. In your letter, be polite but strong in demanding scientific evidence of its safety. Include as many links in your letter/ email to scientific research, the global movement against 5G. Remember, you need to educate the decision-makers ASAP. Follow up with phone calls and be that squeaky wheel that gets the oil. Modern warriors mean business.

3. WRITE TO YOUR PARLIAMENT NOW. **Write to and/or call your Minister for Communications and local Members of Parliament.**

Take your arguments to the policy-makers. Simply use your same email to local council and edit it slightly and send it off immediately to your local members of parliament and our ministers.

In Australia these are:

*Federal Ministers for Communications Mitch Fifield & Bridget McKenzie
Opposition Communications Minister Michelle Rowland*

*Electorate Office:
42 Florence Street
Mentone VIC 3194
Tel: 03 9584 2455
Tel Toll Free (VIC only): 1300 797 110
Fax: 03 9584 8347*

*Parliament Office:
Parliament House, Canberra, ACT 2600
Tel: 02 6277 7480
Email: Minister@communications.gov.au*

*Electorate Office:
279 Hargreaves Street
Bendigo, VIC, 3550
Telephone: (03) 5441 4251
Fax: (03) 5441 4260
Toll Free: 1300 889 103*

*Parliament Office:
PO Box 6100, Senate,
Parliament House
Canberra ACT 2600
Telephone: (02) 6277 3200
Fax: (02) 6277 5755*

Email: michelle.rowland.mp@aph.gov.au

*Greenway Electorate office
230 Prospect Highway
Seven Hills NSW 2147
Tel: 02 9671 4780
Fax: 02 9671 5147*

*Parliament House office
PO Box 6022
House of Representatives
Parliament House
Canberra ACT 2600*

*Tel: 02 6277 4833
Fax: 02 6277 8586*

3. MOBILIZE YOUR COMMUNITY NOW.

Join or begin a local actions group to raise awareness and create a stronger alliance of modern warriors.

Find your local STOP 5G initiative or start one yourself. Also join national STOP 5G groups to stay on the pulse of movements and to data-share. Open a FB group to share information, invite all the community and work swiftly on these outcomes:

*i) Initiate a community meeting as soon as possible. Even if its only ten people, do it. It will grow into more. Don't wait for big numbers, go ahead with the willing warriors immediately! Work together with like-minded with swiftness. Take the reigns.
ii) Spend an evening visiting and **speaking to your neighbours** and asking them if they know about the issue. Calanderise it!
iii) **Make a call out for SCIENTISTS** in your area that can join the group and comment on EMFs to help educate and add weight to the campaign. This website helps connect you to geobiologists in your area:*

<https://en.geovital.com>

*iv) Get a local designer to knock up an A4 poster, **print one thousand copies with next community meeting date** and grab a team to letter-drop or door-knock ASAP.*

<http://emfsafetynetwork.org/wp-content/uploads/2018/03/5G-Be-Careful-72-pixels.jpg>

*v) Contact local media and take your argument to the press.
vi) Organise a public hearing with local council immediately. Local council must see that their electorate are strongly against 5G. Stress to your local council that they must take this matter up with the Federal Ministers for Communications.
vii) Contact local schools and make meetings to educate admin there regarding wifi and the effects on children's brains. Ask the school to allow you to promote future meetings or public hearings through their network of families.
viii) Do not stop rallying, politely demanding and making a noise to protect our biology and that of all creatures that live with us. We CAN stop this at the local level but it takes ALL OF US.*

"NEVER DOUBT THAT A SMALL GROUP OF THOUGHTFUL, COMMITTED CITIZENS CAN CHANGE THE WORLD; INDEED, IT'S THE ONLY THING THAT EVER HAS."

- MARGARET MEAD

SPECIES SURVIVAL CHECKLIST

Pull up your modern warrior socks and get prepared to devote some time to this. Calendarise. Make sacrifices. Give up Game of Thrones for a while.

Do at least ten hours of research on the topic. Watch the videos, read the reports, wise yourself.

Share this manual with people you know who are awake and who you can trust to ACT.

Email/write to/call local council and ask for a meeting to discuss 5G.

Email/write to/call Ministers for Comms and local MPs.

Join local STOP 5G groups and invite others to join.

Organise local meetings with a view to a public hearing with local council.

Alert neighbours, educate family, talk to people about it as much as possible.

Stick up posters in home and car windows.

Locate local scientists who can educate public and help with council meetings.

Write to local print press and radio shows presenting the story again and again.
